

Plastic Recycling in the Kitchen

Not all plastic is created equal; some types are much more easily recyclable than others. Below are the current rules for plastic recycling in Livermore. We know it's not always easy, so thank you for recycling right!

Please rinse or wipe containers before recycling. Caps and lids go in the Garbage.

Here's where to put used plastic items:

In the RECYCLING:

Plastic tubs and cups (labeled 1-7)

Plastic jugs

Plastic bottles

Cartons

In the GARBAGE:

Plastic cups, plates and utensils — including those labeled "compostable"

Clear plastic clamshells and to-go containers

Black plastic clamshells and to-go containers

Plastic coffee pods
